been a hunter of moonshiners. That accounts for the lead, and it would almost seem that he has been the favorite target for moonshiners, as he has been shot at so much that he has long since lost count. Thousands of shots must have missed him, but a whole lot of bullets and buckshot did hit him, and he delightfully carries them around with him.

His eyes were badly done up in the last raid he led, so Sam is now about blind, as a portion of his reward for being a revenue officer for the past twenty-seven years. Three times he has been left for dead on the field, the eyes again.

But you ought to see the other fellows. It is a good guess if Sam was badly done up the other crowd must have been wiped off the face of the

lams, When Challenged, Gets German's Nerves.

In repose Senator John Sharp Williams of Mississippi is one of the mildest and best-natured and most inoffensive men imaginable, although in debate on the floor of the senate Mr. Williams can show that he has some fire in his make-up. No one would accuse him of being bloodthirsty or of having ever fought a duel. He did once, though.

It was when he was attending the famous Heidelberg university in Germany. A German student challenged John Sharp.

"In Rome do as the Romans do," Mr. Williams counseled himself. Therefore he promptly accepted the

IS A MOVING PICTURE FIEND

Senator Clapp of Minnesota Goes the Route Every Evening, So It Is Claimed.

If you happen to be doing the moving picture circuit in upper 14th street -or the Rue de Quartorze, as Frenchmen call it-any night, and happen to see a large, dignified body wearing a senatorial toga somewhere in the offing, set it down at once for the form of Senator Clapp of Minnesota, who has been investigating campaign ex-

penses for a long time. Senator Clapp is the moving picture flend of the United States senate. He goes the route every evening, so it is claimed, and takes special delight in those theaters where brandnew productions are advertised nightly. He is the five-cent melodrama marathon champion of the United States. He loves to see the hero hop into a hired automobile and chase the villian across the plains; he loves to see the Irish tragedians who take the part of the noble red men of the west; he loves to see the funny man who falls into a barrel of flour; he loves to watch the trick pictures and the Mutt and Jeff stuff that makes the populace rock and howl with laughter. He likes the plain form of amusements. He takes his pleasures simply, cheaply and quickly.

Right off the reel-as it were.

Coal Prices High.

In 1912 the total output of coal in short tons, valued at the mines at \$695,606,071. The gain in output over 1911 was 38,095,454 short tons and the increase in value was \$69,040,860. The average value per ton in 1912 exceeded that of any year during the 33 years for which statistics are available. Only in 1903, the year of the fuel famine, did prices average higher

The figures were compiled by Edward W. Parker, coal statistician for the United States geological survey.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala .- "I must confess", says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me great deal of good.

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year. Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps

and strength. Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Discomfited Bully Certainly Gave His Adversary What Might Be Called Fair and Proper Warning.

Many of the best Pennsylvania stories come from the lumber camps. This bit of rough-and-ready history was told in a hotel lobby by a visitor to Philadelphia from the great West Branch valley of the Susquehanna:

"Paddy Wood was the porter at the Ginricky house in my town. He was mark for mischievous boys who found that he would chase them if properly baited. He had a board about five feet long which he promadding to the spice of danger to

Paddy Plank, a swaggering woodsman, with numerous raw or "natural" whiskies under his belt, hove in sight. He stopped in the road, fumbled for his woodstock half dollar back to you with a smile. pipe for several minutes and was a longer time lighting it. The woodstock pipe was a cavalier affair usually smoked with the bowl turned down by men who affected bravado. It was not the pipe of peace, however, for the moment Paddy Plank's orbs sighted Paddy Wood he discovered that his system craved a little Kilkenny fun and he began to hand Paddy Wood some choice compliments, such as are usually set afloat when one is looking for trouble.

"Paddy Wood deliberately arose from the bench, picked up his board and smote Paddy Plank on the jaw, knocking his pipe across the lot, the sparks from which described an arc of fire like a rocket.

"Surprised at the speed of Paddy by wire-and seeing his disadvantage, he started to run, with Paddy Wood trying to lift him off his feet with every jump.

"As soon as he reached a safe distance from his pursuer, Paddy Plank turned around and uttered this piece

"'Kape away from me! Kape away from me! or you will have your heart's blood on me hands!""

Brazil's Rubber.

A large part of the world's supply of crude rubber comes from the republic of Brazil, which has hitherto paid little attention to the manufacture of that commodity. Another day is coming. Brazil is about to engage intelligently in the manufacture of rubber, an enterprise which, in the course of time, may affect the manufacture of that material in the United States and Europe, by bringing in a new and formidable competitor. Le Brezil Economique of Rio de Janeiro says that under favorable conditions offered by the government refineries of caoutchouc (rubber) will be established in a number of states and factories for the manufacture of rubber articles in the cities of Manaos, Belem in Para, Recife and Bahia. There will be special exemptions in the way of duties upon articles imported for the carrying forward of this enterprise.

Crocodile in a Tree.

An African hunter once found a large crocodile hanging in the fork of a tree about ten feet from the ground. As the place was fully half a mile from any water, it was difficult to account for the crocodile's strange position. When questioned upon the subject the natives explained that it was put there by an elephant. It seems that when the elephants wade into the Lake Ngami to bathe the crocodiles are in the habit of worrying them and biting the United States was 534,466,580 build the weakened organs back to health their legs. Sometimes when an elephant is annoyed beyond endurances it picks up its tormentor in its trunk, puts it among the branches of a tree and leaves it there.

> Period of Rigorous Fasting. The fast of Ramadan, "the month

of raging heat," commemorates the period in which the first part of the Koran is said to have been received. When observed according to the commands of the prophet it is a fast of extraordinary rigor. No food or drink of any kind is permitted to be taken from daybreak until the appearance of the stars at night. This abstinence is absolutely binding upon the faithful, whether at home or abroad, and making a short circuit. The cat was only those who are seriously ill are excepted from its provisions. These must keep the fast as soon afterward as possible, for a like number of days.
